

## SCOTT D. HEBERLING, MA

### Heberling Associates, Inc.

Mr. Heberling serves as Director of Historic Resource Studies for Heberling Associates and as Principal Investigator on projects having primarily an historical orientation. He has extensive training and 26 years of professional experience in preparing a wide variety of documents required under the Section 106 process, including Phase I/Phase II/Phase III historical archaeological investigations; historic structures inventories and Determination of Eligibility reports; Criteria of Effect reports; and HABS/HAER recordings.

For over two decades he has helped to complete over 120 projects for a variety of clients. Mr. Heberling meets the Secretary of the Interior's Professional Qualifications Standards for both Historical Archaeology and History and currently is a member of the PA Historical and Museum Commission's Historic Preservation Board, which advises PHMC staff and reviews National Register nominations from across the state.

Mr. Heberling's responsibilities include general project management, background research, coordination of required historic structures studies, site interpretation and analysis, historic archaeological investigations, report preparation.

*Related experience includes the following selected projects:*

- **Newkirk Cemetery, I-70 Bentleyville Interchange Project, Washington County, PA.** Historical and Geophysical Investigations.
- **SR 65 Bridge Replacement, Ellwood City, Lawrence County, PA.** Historic Resource Survey including evaluation of Pittsburgh Circle historic district in Ellwood City, preparation of Section 106 documentation.
